

YOUR AIDE IN THE LAB

Soft Flow is pleased to announce the latest release of its popular **FCAP Array Infinite™** acquisition multiplexed assay software.

Design

- User friendly graphically focused software
- A simple step-by-step analysis of complex and compact data
- Drag & drop options to design experiments
- Elegant experimental definitions to eliminate confusion
- One-click publication ready charts
- Multiple file export format option
- Experimental layout by drag & drop of FCS files
- Built-in test tool for clustering and for examining FCS files
- Smart reports

FCAP Array Infinite™ software is the most powerful software for processing bead based cytometric data. Sophisticated algorithm supports automatic cluster identification.

FCAP Array Infinite™ offers all application tools that are required for rapid, efficient and complete multiplexed assay performance.

Analysis features

- Constantly expanding list of supported FCS files
- Background samples feature
- Ability to define standard series dilutions quickly
- Advanced curve fitting by standard point, curve type and weight method selection
- Enhanced clustering algorithms and cluster assignment
- Built-in debris filtering
- Manual option for microbead clustering
- Analysis models: Quantitative, Qualitative, Quality Control
- Supports second-reporter parameter

YOUR AIDE IN THE LAB

System Requirements

Item	Specification
CPU	Intel Pentium 4 (2 Ghz or equivalent)
RAM	512 MB or higher
Hard drive space	50 MB for installation, 4 Gbfor data storage
Monitor resolution	minimum resolution 1024x768, 1440x900 recommended
Internet Connection	Software activation, Startup
Operating System	Win7, 8, 8.1 & XP, Vista (32 or 64 bit)

FCAP Array Infinite

Always providing the most progressive, professional and up-to-date multiplex assay analysis software solutions.

- ✓ Stay **FLEXIBLE** whether your projects are temporary or ongoing, pay only for the access you need without long-term commitment.
- ✓ **PAY-AS-YOU-GO** approach gives you access to a full version you would get with a perpetual license but with all the new updates and with a cost effective, flexible and predictable software budget.
- ✓ **BENEFIT** from the always expanding list of supported FCS files acquired by not only the most popular but the newest available flow cytometers.
- ✓ **ACCESS** to the latest tools and **ENJOY** the constantly improving analysis and reporting methods.
- ✓ Stay **CURRENT** with the most up-to-date FCAP Array developments and releases.
- ✓ **ROLLING** release software updates ensure that your FCAP Array will be always up to date.

FCAP Array Infinite

progressively CURRENT

Flow Cytometry Data Analysis and Processing Software

The most progressive, professional, up-to-date solution for processing bead array data.
